Spectrum Brands

WE MAKE LIVING **BETTER** AT HOME™

At Spectrum Brands Home & Garden, we work hard to deliver effective, straightforward solutions that simplify life at home.

Our experience, expertise and commitment to excellence drive our continued innovation to stay ahead of consumer needs. Our efficient, easy-to-use products equip do-it-yourself consumers with the tools they need to tackle any nuisance pest, weed problem or home cleaning project. With our portfolio of brands dedicated to helping people protect their homes and families, Spectrum Brands Home & Garden is the go-to partner consumers trust to help them get the job done.

We're committed to ever-improving speed, efficiency and innovation – together. Strong collaboration with our retail partners is key to making better connections with consumers. We're invested in building our brands with effective marketing initiatives and innovative merchandising and implementing the right support at store level to help retailers get shoppers the right solutions.

Consumers turn to the Spectrum Brands Home & Garden family of brands – including Spectracide® lawn and landscape solutions; Hot Shot®, Black Flag® and Ecologic® home insect controls; Cutter® and Repel® insect repellents; Rejuvenate® home cleaning and restoration products; Liquid Fence® animal repellents; and Garden Safe® Brand garden pest controls – for everyday home essentials that are up to whatever task they're tackling.

Product News

As a leader in the home and garden industry, Spectrum Brands is constantly researching and developing efficient and easy-to-use products that are great for the whole family. We continue to develop new products to solve your consumers' toughest problems — with brand names they can trust and at a value they'll love.

Look for these icons throughout this catalog to see our latest innovations!

Find Us Online

Websites

Our websites are designed as go-to resources for consumers researching pest and weed problems. Consumers can match bugs and weeds with the products that will work best, sign up to receive offers and promotions, and view product labels and safety information.

Social Media

Through Facebook, YouTube, Instagram, product ratings and product reviews, we're delivering timely information straight to the consumer, sharing how-to videos, answering questions and driving dialogue. We're even able to direct specific consumers to your stores to find the products they're looking for!

Protecting Your Lawn & Garden, Your Home & Family

Spectrum Brands Home & Garden is proud to offer a complete portfolio of home essentials centered around the lifestyles of do-it-yourself consumers. Whether your customers need to control lawn weeds, protect their gardens from insects or animal pests, stop bugs from invading indoors, repel mosquitoes or clean their homes, they can depend on a Spectrum Brands solution to help them get the job done.

Use this key to help you navigate our brands and point your shoppers to the right solutions.

Contents

LAWN & LANDSCAPE PAGES 3-26

Take charge in your backyard with Spectracide® weed and bug control products. YOU HOLD THE POWER®

INSIDE THE HOME PAGES 27-36

Save the day from invading bugs with Hot Shot® insecticides — a complete lineup of indoor and outdoor solutions to keep pests out.

THE BACKYARD, THE PATIO & YOU PAGES 37-46

You've got enough on your plate. Let Cutter® products make biting bugs one less thing you need to worry about. Protect Your People™

FAMILY ADVENTURES PAGES 47-54

Get out there and enjoy the outdoors with Repel® products – dependable protection for the whole family in a range of formulations.

FLOOR CARE PAGES 55-62

Innovative, quality cleaning solutions to help you keep your home looking spotless.

IN & AROUND THE HOME PAGES 63-68

When the flag flies, pests die. Black Flag® brand offers powerful formulas for tough pests indoors and around the home.

AROUND THE GARDEN & LANDSCAPE PAGES 69-72

Liquid Fence® animal repellents send hungry deer, rabbits and other plant-munching pests packing.

FOR THE GARDEN PAGES 73-78

Good things come to those who garden. Let goodness grow with Garden Safe® brand bug and disease control products.

PEST CONTROL SOLUTIONS PAGES 79-84

Ecologic® products provide a stress-free approach to pest control made with you in mind. Real Life. Real Effective.™

YOU HOLD THE POWER®

Selective Herbicides Or Non-Selective Herbicides

To determine which product is right for your customer, ask these simple questions:

- What are you trying to kill?
- Where are you trying to kill it?

NON-SELECTIVE

Best used for areas of unwanted vegetation or where no growth is desired, like on concrete and brick walkways, driveways and patios and around fences.

- Visible results the same day
- Non-selective herbicides are not discriminating about the weeds or grass they kill

SELECTIVE

Use on lawns and around your landscape areas, as a spot treatment around trees and shrubs, in flower beds and on patios and walkways. Be careful not to allow spray to drift onto desirable plants, as injury to plants may result.

- Kills The Weeds, Not The Lawn™*
- Controls only the weeds listed on the label

*When used as directed

Choose The Right Delivery System For The Job

Ready-to-Use

TRIGGER SPRAY

Ideal for spot treatment. Handheld bottles available in various sizes and sprayer styles.

GALLON SPRAY

Ready-to-use bottle with handle and snap-in sprayer attachment; suited for treating larger areas.

POWER SPRAY

Battery-powered AccuShot® and Flip & Go® sprayers facilitate convenient, continuous treatment and precise application.

Concentrate

POUR & MIX

Ideal for use with a tank sprayer to treat large areas. Must be mixed with water as directed.

HOSE-END

Use to treat large areas. Simple hose-end attachment makes application easy; no mixing required.

Turn Up The Heat Against Fire Ants

KEY PRODUCT FEATURES

Mound Treatment

For active infestations, advise customers to spot treat visible mounds with Spectracide® Fire Ant Shield® Mound Destroyer® Granules or Spectracide One-Shot® Fire Ant Killer.

Yard Treatment

Your customers can broadcast Spectracide® Fire Ant Shield® Yard Protection™ Granules or Spectracide One-Shot® Fire Ant Killer over their lawns at the first sign of fire ant activity to keep their lawns free of fire ants for the entire season.*

*For up to 3 months

YOU HOLD THE POWER®

Fire Ant Facts

A familiar ailment to those who go barefoot outdoors, fire ants bite relentlessly when hungry or irritated, causing a burning sensation, swelling and redness. They often attack in swarms and can destroy whole ecosystems by killing other insects, birds, lizards and small mammals. These large, reddish ants multiply rapidly; queens can live up to 6 years and produce millions of eggs. Common in the Southeast and Southwest, the range of fire ants is expected to extend up the Pacific coast and into Oregon and Washington over the next few years. Fire ants live in large mounds that can extend up to 18 inches above ground. It's important to treat for fire ants in the morning or evening because at these times, they're closer to the surface. Use caution when treating because disturbing the mound can cause the colony to migrate elsewhere in your lawn, reducing the effectiveness of treatment. In light of the growing danger from these invasive insects, Spectracide® brand has developed a range of formulas designed for mound treatment and protection of yards.

REPEL[®]

GET OUT THERE

Whatever your outdoor adventure, you need your insect repellent to keep up. Repel[®] insect repellents offer dependable protection for the whole family in a range of formulations so you can soak up some sun without swatting biting bugs. Whether you're lounging at the lake, cheering on your favorite team or firing up the grill, there's a Repel[®] product to fit your outdoor fun.

Protection For Any Family Adventure

LOW DEET

Recommended for long-lasting mosquito protection, DEET-based repellents are available in a wide variety of formulas and concentrations. For shorter outings, pick a repellent lower in DEET, like Repel® Insect Repellent Scented Family Formula® 15% DEET (page 49).

IR3535®

IR3535®-based insect repellents, like Repel® Insect Repellent Family Formula® (page 52), are odorless, non-greasy and feel light on the skin. Use for effective, dependable protection for the whole family that lasts up to 8 hours.

PICARIDIN

For a light feel and strong protection, picaridin-based insect repellents, like Repel® Insect Repellent Mosquito & Tick Wipes 12% Picaridin (page 52), are a good choice. Picaridin won't damage plastics or synthetic materials, like backpacks or sporting equipment.

OLE

With natural mosquito repellent properties, oil of lemon eucalyptus is one plant-based active ingredient recommended by the Centers for Disease Control & Prevention. Found in Repel® Plant-Based Lemon Eucalyptus Insect Repellent₂ (page 53), this active ingredient lasts up to 6 hours and can be used on kids 3 years and older.

Repel® Insect Repellent Scented Family Formula® 15% DEET (Aerosol)

REPEL®

HOW DOES PERMETHRIN WORK?

Permethrin-based sprays for clothing, like Repel® Permethrin Clothing & Gear Insect Repellent, are the outdoorsman's best-kept insect-repelling secret. Unlike skin repellents formulated with DEET or picaridin (which ward off listed insect pests), permethrin sprays disable biting bugs when they contact or bite into treated surfaces, killing them. Repel® Permethrin Clothing & Gear Insect Repellent actually binds to the fibers of treated fabrics, including gear, tents and even nets, for up to two weeks of residual protection through several washings. When using a permethrin-based product on your clothing, you'll need to plan ahead – sprayed garments or equipment need at least two to four hours of drying time before you can pack them up or wear them. Lay out the articles you want to treat in a well-ventilated outdoor area and spray the surface of the fabric until the outer surfaces are visibly moist, avoiding surfaces that contact skin. Hang treated garments or equipment to dry.

Repel® Permethrin Clothing & Gear Insect Repellent (Aerosol)

- For clothing and gear (do not apply to skin)
- One treatment lasts up to 2 weeks
- Repels and kills mosquitoes, ticks and mites

0.5% Permethrin

YARD TREATMENT

Defeat Fleas & Ticks

With A Dual Approach

An effective flea & tick control program includes simultaneous, coordinated treatment of the HOME & YARD. Treatment and prevention go hand in hand, so it's key to treat both areas. This integrated pest management approach involves inspection, cleaning, and targeting eggs, larvae and adult pests with the appropriate insecticides. Follow-up treatments are almost always necessary, as flea and tick problems will not be solved with just a one-treatment approach.

WHAT YOU SHOULD KNOW ABOUT FLEAS & TICKS

FLEAS

- Tiny, hard-bodied insects
- About 1/16-inch-long, fleas are about the size of a poppy seed
- Reddish-brown color

Fleas can infest carpets, animal bedding and furniture

TICKS

- Part of the arachnid family
- Adult ticks have four pairs of legs and no antennae
- Two groups of ticks: "Hard" ticks have a hard shield just behind the mouthparts; they are shaped like a flat seed when unfed. "Soft" ticks do not have a hard shield and are shaped like a large raisin

Ticks wait for hosts from the tips of grasses and shrubs

SIGNS YOUR PET MAY HAVE FLEAS

- Red, irritated skin around neck, ears, belly or hindquarters
- Intense itching, licking or scratching
- Tiny dark specks on body or bedding

Once They Land,
They Never Leave

Roach Motel®

Send Roaches On A One-Way Trip

Cockroaches are considered a major urban pest – they can scatter quickly, eat almost any food source available, squeeze into tiny hiding places and reproduce very quickly. If you've seen one or two, there are likely many more hiding where you can't see.

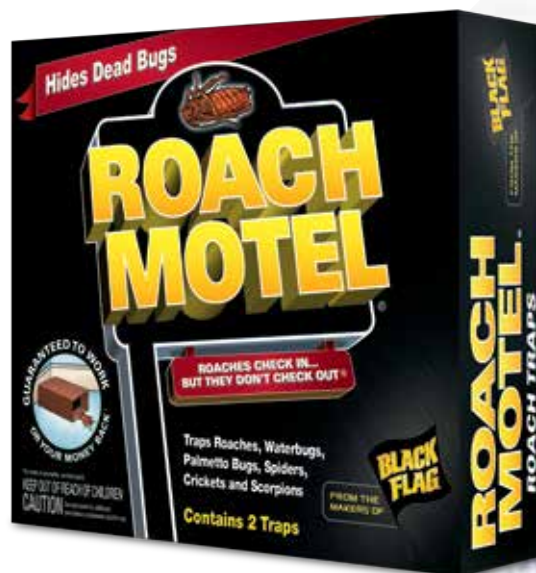

The Roach Motel® roach trap from the makers of Black Flag® products rounds up these pesky insect invaders. This versatile, adhesive trap works against all kinds of roaches, Palmetto bugs, waterbugs and other crawling bugs, including crickets, scorpions and spiders. Plus, it hides unsightly dead bugs in an enclosed trap that's easy to discard when full.

Roaches check in... but they don't check out!®

Roach Motel® (Roach Traps)

- Hides dead bugs
- Traps roaches, waterbugs, Palmetto bugs, spiders, crickets and scorpions

How Do Liquid Fence® Products Work?

Smell • Taste • Fear

Animals instinctively stay away from certain smells and tastes.

Sulfur-containing compounds, including those found in urine from mammal predators, meat protein, egg solids and garlic, trigger prey-response behaviors.

Repellent products that contain putrescent egg solids and garlic, such as Liquid Fence® Deer & Rabbit Repellents, induce fear and are highly effective at deterring deer and rabbits.

Safeguard

Your Homegrown Harvest

WHAT'S INSIDE

- 1 Potassium Salts of Fatty Acids,** the active ingredient in Garden Safe® Brand Insecticidal Soap Insect Killer, can be used in vegetable gardens up to the day of harvest.
- 2** The active ingredient damages the cell membranes of many soft-bodied insects, such as aphids, whiteflies and mites, killing them through contact.

Garden Safe® Brand Insecticidal Soap Insect Killer (Ready-to-Use)

- Kills bugs through contact
- May be applied to edibles up to day of harvest
- Contains specially selected soaps (fatty acid salts) chosen for effective pest control

1% Potassium Salts of Fatty Acids

How Do Ecologic® Products Work?

The compounds in Ecologic® products have been specially selected for their pest control properties.

Some target bugs by disrupting insect neurotransmitters that aren't present in people or animals.

Ecologic® formulas are laboratory tested, so you can feel confident they'll be effective on pests – and safe around children and pets when used as directed.
