FOR THE ONES WHO GET IT DONE

Designed For Safety First

All Cardinal Safety Cutters are designed with safety guards around the blades to ensure safe cutting, earning our products a high level of safety design.

Always Innovating

Our replaceable blade cartridges are one example of how we continue to provide products and solutions that improve safety and reduce cost. One cartridge has **4 to 8 times the blade capacity** of other safety cutters.

Designed For Recycling

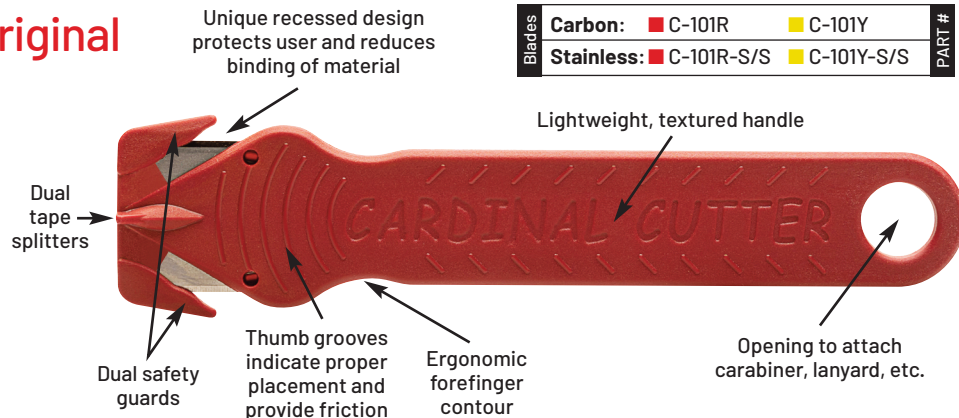

We are committed to reducing landfill waste and pollution, which is why we designed Cardinal Cutters to be completely recyclable. Use your local recycling resources guidelines for safe blade disposal.

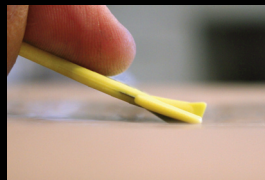

Cardinal® Cutter: The Original

The original, versatile safety cutter.

Made of recyclable plastic, this lightweight and efficient tool comes with your choice of carbon or stainless steel blades. Its proper blade angle extends the life and performance of the blades, while the dual safety guards and concealed blades make it practically impossible to injure yourself or others.

The Cardinal Cutter's unique, **recessed blade design** offers precise cutting for a variety of materials, including cardboard.

The dual **tape splitter** cuts through packing tape with ease, maintaining blade integrity – even with sturdier material.

Dual **safety guards** protect the blades, package contents, and the user to ensure safe cutting in any application.

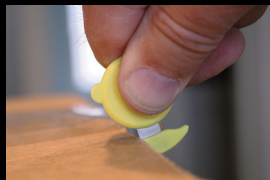

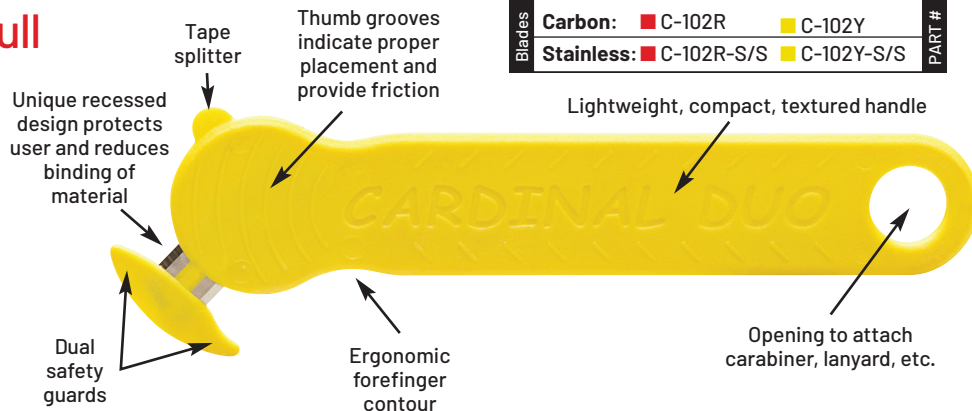

Efficient **blade angle** reduces **binding** and makes cutting through any material effortless.

Cardinal® Duo: Push & Pull

Featuring a **double-sided blade for both push and pull cutting capabilities**. The Cardinal Duo is slim and lightweight and fits easily into your pocket or attaches to a lanyard or keyring. Its comfortable handle is easy to grip with your thumb and forefinger for simple, stress-free cutting.

The Cardinal Duo's innovative, **double-edged blade design** allows for two methods of cutting – both push and pull – making it adaptable to any cutting application.

Dual **safety guards** protect the blades, package contents, and the user to ensure a safe cutting experience.

The Cardinal Duo **tape splitter** cuts through packing tape and lighter materials with ease, maintaining blade integrity and cutting power.

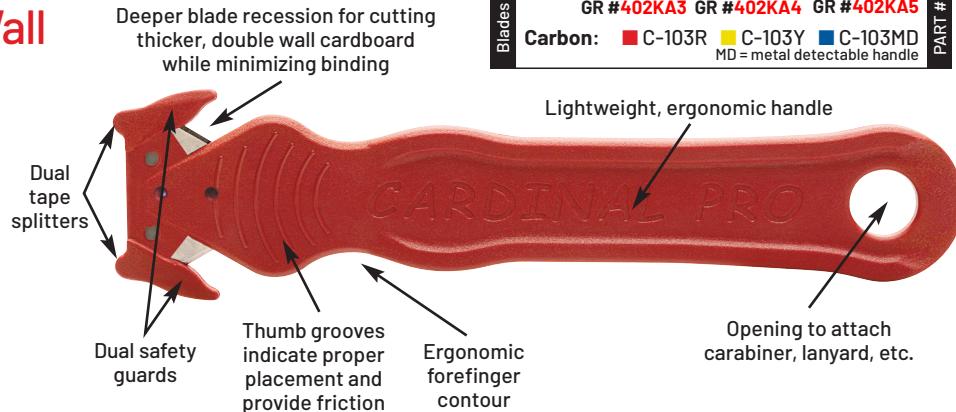

Precise and efficient blades **reduce binding** and make cutting through any material effortless.

Cardinal® Pro: Double Wall

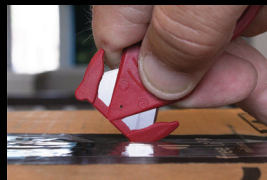

Designed for your thicker application needs such as double wall cardboard. The Cardinal Pro combines power, precision, and speed in a safety cutter. This smart and effective tool packs a lot of cutting power in an ergonomic package, and is fully recyclable. Angled blades reduce the potential for binding, and the lightweight, ergonomic handle is designed for comfort and productivity.

The Cardinal Pro's **deeper recessed blades** make it ideal for tougher materials, but it's also well-suited to any application, from double wall cardboard to sheets of plastic.

Cutting through thick plastic banding is made easy with the Cardinal Pro's proper blade angle. Cut at a 45 degree angle for maximum efficiency.

The Cardinal Pro features **dual tape splitters** for cutting through packing tape and material that maintain their integrity, even through tougher materials.

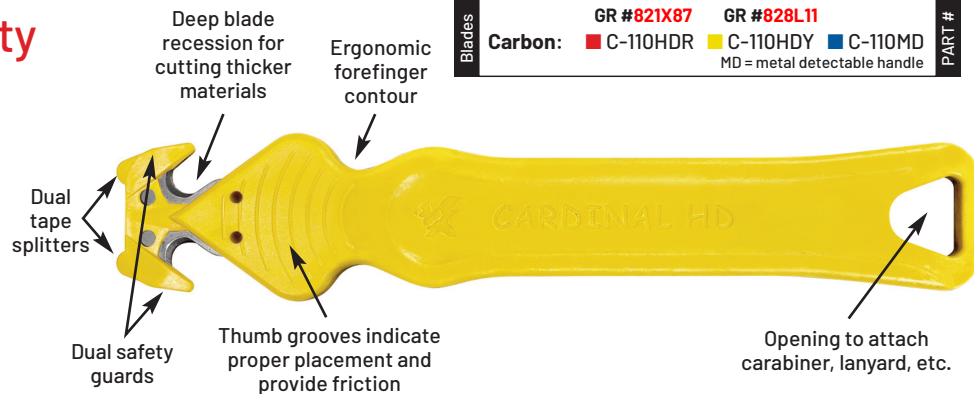

The Cardinal Pro's efficient blade angle **reduces the chance for binding** – for cleaner and more precise cutting power.

Cardinal® HD: Heavy Duty

Designed for your heavy duty

application needs. It can handle the toughest of cutting applications while also eliminating material binding. It has a custom, steel safety blade with a thicker design for added strength. It will cut anything from tape, plastic, zip ties, up to 1/4-inch thick cardboard, etc.

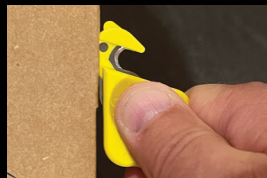

The heavy duty Cardinal HD blade **cuts through tougher materials**, such as sheets of thick plastic and zip ties.

The Cardinal HD **tape splitter** cuts through packing tape, thicker cardboard, and heavy duty banding material with ease.

Cutting through thick plastic banding is made easy with the Cardinal HD's strong, steel blade. Cut at a 45 degree angle for maximum efficiency.

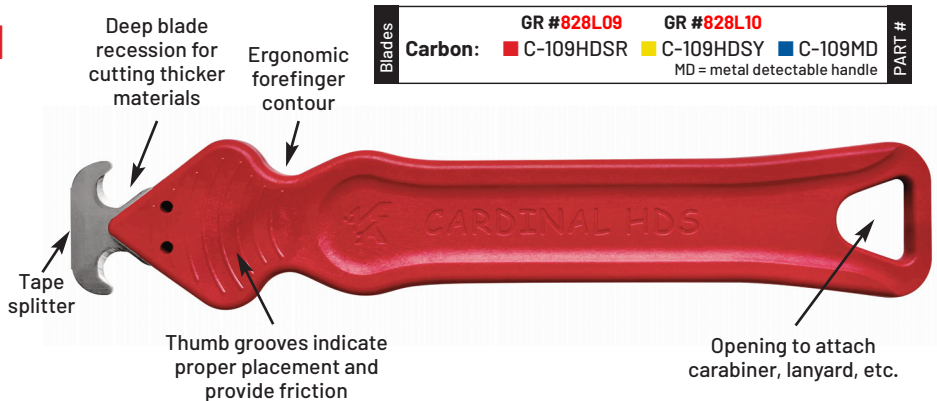

The Cardinal HD blade has the strength to **easily cut through 1/4-inch thick cardboard**.

Cardinal® HDS: Steel Head

Designed for both heavy duty and abrasive applications. It can handle the toughest of cutting applications, including abrasive materials, while also eliminating material binding. It has a custom, steel safety blade with a thicker design for added strength. It will cut anything from tape, plastic, zip ties, up to 1/4-inch thick cardboard, etc. The upper metal edge is designed as a tape splitter.

The heavy duty Cardinal HDS blade **can cut through tougher, abrasive materials**, as well as sheets of thick plastic and zip ties.

Cutting through thick plastic banding is made easy with the Cardinal HDS's strong, steel blade. Cut at a 45 degree angle for maximum efficiency.

The Cardinal HDS blade has the strength to **easily cut through 1/4-inch thick cardboard**.

The Cardinal HDS design allows the top edge to be used as a **tape splitter** for cutting through packing tape and material.

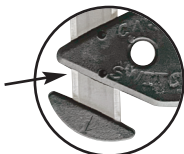

Cardinal® Switch: Replaceable Cartridge

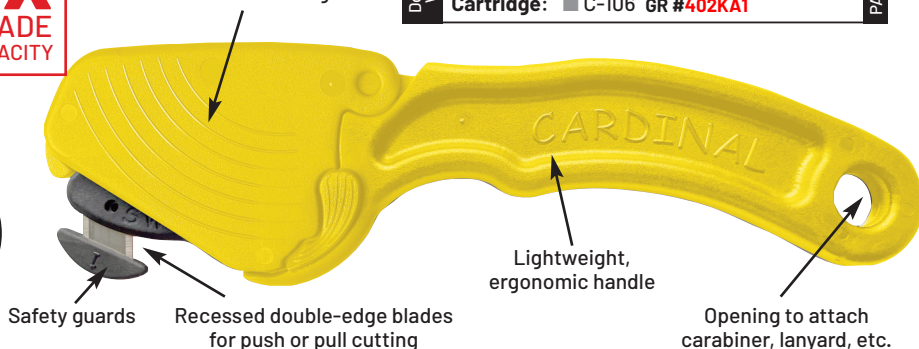

The longest-lasting safety cutter on the market. The Cardinal Switch offers replaceable cartridges, each with eight cutting surfaces (four push and four pull). Reduce cost and waste by keeping the handle and only replacing the cartridge.

**8X
BLADE
CAPACITY**

The optional **Double Wall** version has extra deep blades for handling thicker, double wall cardboard cutting needs.

Thumb grooves for better control while cutting

Scan the QR code with your phone to watch our video showing how to open the rotating door and replace the Switch cartridge.

The Cardinal Switch uses our replaceable cartridge with eight different cutting surfaces creating **4 to 8 times the blade capacity** of other safety cutters.

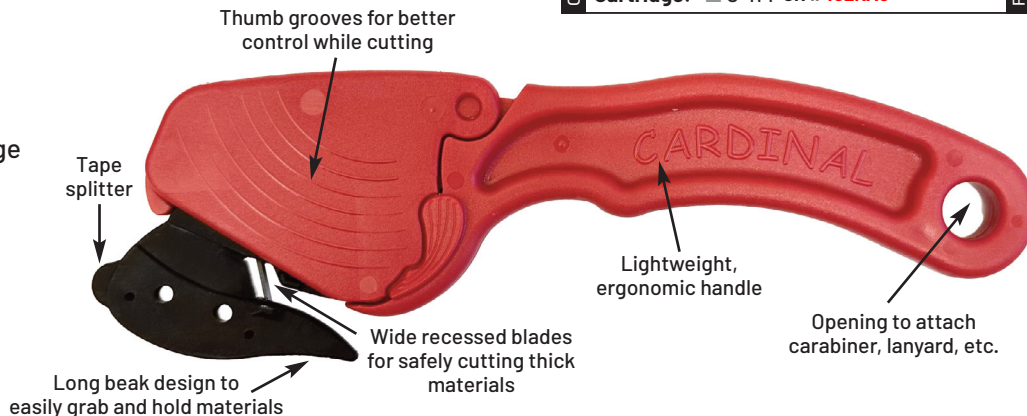

Each cartridge has **numbered blades** (1 thru 4) to easily identify and keep track of which blades have been used.

Cardinal® Beak: Replaceable Cartridge

Cutting plastic film has never been easier with our unique design and ergonomic handle. Save time and money by just replacing the cartridge and keeping the handle. The replaceable cartridge also offers a plastic tape splitter to help extend the life of the blade.

The Cardinal Beak blade is designed to **easily cut through multiple layers of plastic film**, thick plastic or cardboard, as well as zip ties.

The top edge of the Cardinal Beak includes a **tape splitter** for cutting through packing tape and material.

The Cardinal Beak uses a replaceable cartridge **to save cost** by not needing to replace handle.

Cardinal® Switch Mini: Attaches to Key Chain

Our Cardinal Switch Mini fits in the palm of your hand. It is ideal to use while attached to a key chain or lanyard. The Mini uses the same replaceable cartridges as the Cardinal Switch. Each cartridge has eight cutting surfaces (four push and four pull) creating 4 to 8 times the blade capacity of other safety cutters. All the same cutting surface packaged within a smaller, compact design.

8X
BLADE
CAPACITY

Original	GR #402KA9		GR #402KA8		PART #
	Handle:	■ C-111KCR	■ C-111KCY		
	Cartridge:	■ C-105	GR #402KA2		

The Cardinal Switch Mini uses our replaceable cartridge with eight different cutting surfaces creating **4 to 8 times the blade capacity** of other safety cutters.

Each cartridge has **numbered blades** (1 thru 4) to easily identify and keep track of which blades have been used.

Cardinal® Lanyard: Stay Attached

Quick access to your safety cutter. Use the lanyard to carry your safety cutter without needing to place it into a pocket. The retractable cord allows ample length to do your work with the cutter and when done it quickly stows the cutter out of the way. It includes two clips allowing multiple ways to attach to your clothing.

The lanyard can be attached to your belt or pocket using the **belt clip on the back** or to a belt loop using the **carabiner spring clip on the top**.

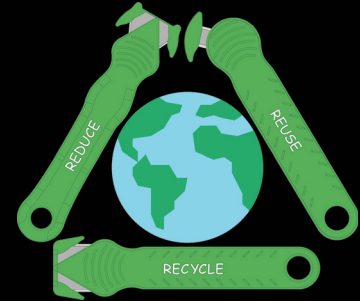

The lanyard includes a **flexible loop that snaps closed** so that you can easily attach any of the Cardinal safety cutters to the lanyard's 32" retractable cord.

Cardinal Cutter Recycling

We designed Cardinal Cutters to be completely recyclable to divert our disposable safety cutters from adding to landfill waste and polluting the planet. When it's time to replace your Cardinal Cutters, use your local recycling resources guidelines to comply with all safety regulations.
