Ulti-Mat

GRAINGER CODE: 842V31

PRODUCT OVERVIEW

The Ulti-Mat consists of a single piece of very strong webbing which runs the full length of the unit encapsulating both head and foot end pulling straps, together with the two body straps for tall and short patients along with a leg strap. Once the patient is on the mat they can be enveloped for security by the wings on either side then secured by the webbing and buckles and pulled to safety by means of the head and foot pull straps.

KEY FEATURES

- Simple and quick to deploy.
- Mat is simply rolled out for vertical and horizontal evacuation.
- Allows members of staff to transport patients 2-3 times their own weight.
- No lifting - uses roll and drag method.
- Webbing Design provides patient stabilization.
- Sled curves and wraps around evacuee for added protection.
- Two securing cross straps.
- Can be used with backboard or basket stretcher.
- Each sled rolls up compactly into its carry bag

ResQMe®

GRAINGER CODE: 14H659

PRODUCT OVERVIEW

Quick and easy to prepare for evacuation, allows ONE person to safely transport another in emergencies. Easily moves over ANY surface, across floors and down stairs, It is the ONLY Mat that easily adjusts to the passenger's size (one size fits ALL). Soft-absorbing head pillow reduces head movement going down stairs. Long towing straps at the head and feet for easy maneuvering.

KEY FEATURES

- Pulling Straps at both ends
- Head pillow for comfort and protection
- Will slide on carpet, tiles vinyl and concrete
- Can be pulled by one person
- Strong 4" wide velcro straps to secure the person being rescued
- Wrist/Arm strap to stop hands and arms from flaying out of control
- Can be used for children and adults up to 6'6" tall
- Base board to protect the person from hitting door frames etc., when going around corners

Rescue Sheet

GRAINGER CODE: 14H658

PRODUCT OVERVIEW

The Rescue Sheet is widely accepted as a vital aid in the rapid evacuation of non-ambulatory patients during emergency situations. The Rescue Sheet is located permanently and unobtrusively under the mattress and does not interfere with bed making. The patient is rescued with their bed mattress to offer protection under the patient, especially when going down stairs. **Also Available for Vinyl & Carpet**

KEY FEATURES

- Permanently in place between the mattress and bed frame
- Fits all bed models and mattresses
- Ready for immediate use
- Long straps located at the head and feet for easy maneuvering
- Adjustable wrap around straps for safely cocooning the patient
- Heavy duty construction for maximum efficiency
- Enables one or more persons to evacuate a person in their mattress during an emergency
