

HAVEN

Acoustic Panel Kits

Enhance the sound and style of your open space with Haven Acoustic Panel Kits. It is perfect for an array of settings like schools and classrooms, gymnasiums, religious facilities, auditoriums, home movie theaters, offices, small recording studios, and more to optimize acoustic performance, reduce reverberation, and control unwanted noise. Their versatility allows you to install the panels in diverse options, from flat on the ceiling to freestanding with a foot stand, or wall-mounted. The panel is built to last and offers a sleek, modern design — serving as a decorative focal point.

Better yet, it's fire-resistant, mold- and moisture-proof, and eco-friendly. The tackable panel is composed of 60% recycled material from PET bottles, which produce a soft, strong fabric that's durable.* Noise reduction coefficient (NRC) is rated up to 0.80.

* (Recycled content may result in natural variations in texture and shading, especially from order to order.)

Features

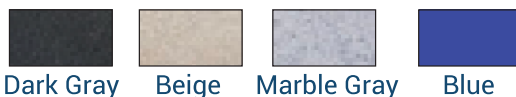

- Each panel is 72" x 31" with rounded corners
- NRC rating of 0.80
- Made from at least 60% post-consumer recycled material
- Solvent-free, no VOCs
- Includes one panel, one foot stand, six cables, four standoffs, and hinges (for 2+ panels) for various mounting options
- Panels are precut to accommodate mounting hardware

The hardware kit allows for the following mounting options:

- Flat on wall
- Vertical (on edge) on ceiling
- On wall using standoffs
- Freestanding using aluminum foot stand
- Freestanding using multiple panels, connected with clip-on hinges

Acoustic Panels

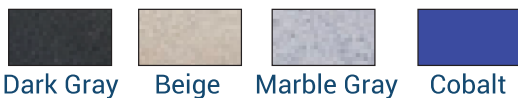

Craft a quieter, more captivating space with Haven Acoustic Wall Panels. These wall-mounted acoustical panels – in five different sizes – are highly effective at trapping sound and reducing noise pollution, creating a peaceful and productive environment. They're fire resistant, mold- and moisture-proof, and eco-friendly: The panels are composed of 60% recycled material from PET bottles, which produce a soft, strong fabric that's durable and has great acoustic performance.* NRC rated up to 0.80. These soundproofing tiles are ideal for schools, conference rooms, religious facilities, auditoriums, home theaters, offices, small recording studios, and more.

* (Recycled content may result in natural variations in texture and shading, especially from order to order.)

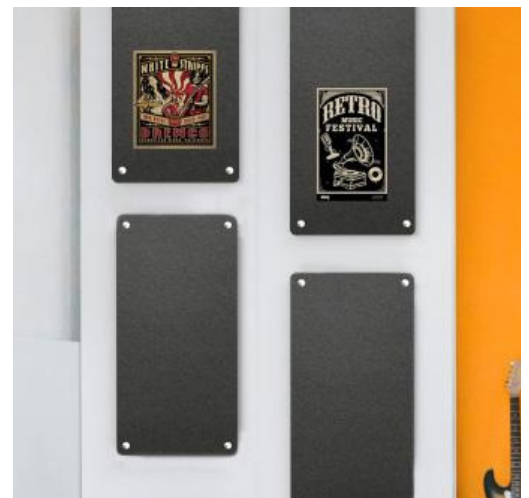

Features

- Price is per tile
- Made from at least 60% post-consumer recycled material
- NRC rating up to 0.80
- Solvent-free, no VOCs
- Includes wall standoff mounts, anchors, and wall screws
- Acoustic wall panels can be mounted vertically or horizontally
