

JN91H1 **METAL CONNECTOR**

SPECIFICATIONS

Trigger	Sequential
Op. Pressure	70-120 psi (4.8 - 8.3 bar)
Air Consumption (60 CPM)	4.4 scfm
Air Inlet	1/4" NPT
Weight	5.48 lbs (2.48 kg)
Height	12.5" (317 mm)
Length	11.13" (282 mm)
Width	4.38" (111 mm)
Main Body Material	Magnesium
Warranty	5 Years

FASTENERS

Capacity	30
Length	1 1/2"
Shank	.131"-.148"
Collation	34° Paper Tape Heat Treated Strip
Series	KJ, MD

INCLUDES

Wrenches
Tool Oil
Safety Glasses
Air Plug

1 1/2" METAL CONNECTOR NAILER

The JN91H1 is specifically designed for fastening pre-punched metal connection hardware to dense engineered lumber, like LVL. This small, compact metal connector nailer fits easily between rafters and joists, driving 1 1/2" nails through joist hangers, seismic and hurricane ties, and rafter straps. The innovative nosepiece design leads with the point of the nail, ensuring precise placement on each drive.

TOOL OVERVIEW

- Best-in-class power, designed to consistently drive through engineered lumber
- Single strip, allows for increased maneuverability in tight spaces
- Innovative nosepiece design
- Dry fire lockout
- Rugged, rotatable belt hook
- Overmold grip increases control of the tool

APPLICATIONS

Joist hangers, anchors, straps, metal framing

1½" METAL CONNECTOR NAILER

JN91H1

METAL CONNECTOR

- 1 LIGHTWEIGHT AND WELL-BALANCED**
Compact design, maneuverable in hard to reach areas
- 2 POWERFUL**
Drives through structural hardware into engineered lumber, like LVL or OSB
- 3 NOSEPIECE DESIGN**
Provides accurate nail placement into metal connector holes
- 4 DRY FIRE LOCKOUT**
Reduces tool wear and indicates the need to reload fasteners
- 5 RUGGED RAFTER HOOK**
Rotatable, aluminum design keeps tool secure when not in use
- 6 OVERMOLD GRIP**
Increases control of the tool

Always read the Operators Manual and Safety Instructions with all tools to ensure proper use and safety precautions.
